## PROFILE

I am a student at Hanoi University with a passion for business analysis, seeking an internship to gain practical experience. My short-term goal is to apply my academic knowledge to real-world projects, while my long-term goal is to grow into a skilled Business Analyst, contributing to strategic decision-making and mentoring others in the future.

## WORK EXPERIENCE

### BA

**HR Management** : Collaborated in gathering and analyzing HR-related business needs. Worked closely with stakeholders and developers to document processes and ensure the system design aligned with departmental workflows and operational goals.

**Microsoft Team** : Supported requirement elicitation and documentation for integrating Microsoft Teams with internal platforms. Proficient in preparing business documentation such as Business Requirement Documents (BRD), Software Requirement Specifications (SRS), and elicitation summaries.

**E-commerce (3 members)** : Sep 2024 - Dec 2024  
Role : Backend Developer + Business Analyst (Leader)

**Technologies** : Spring Boot, Spring Data JPA, Spring Security, Postman, HTML5, CSS, Bootstrap , JavaScript, MySQL , JUnit 5, Mockito, Draw.io, Figma , Interview .

- Designed and managed user status functionality (e.g., active/inactive) and enabled profile editing. Established secure login with authentication mechanisms and applied role-based permissions for system access control.
- Collected and evaluated business needs, then converted them into clear technical deliverables and documentation for developers to implement.
- Developed an individual e-commerce platform enabling users to browse and purchase food items, with an admin dashboard for managing user activity and tracking data.
- Enabled monthly transaction filtering and implemented full CRUD functionalities for transactions and categories, enhancing user interaction and data management flexibility.
