PROFILE

I am a student at Hanoi University with a passion for business analysis, seeking an internship to gain practical experience. My short-term goal is to apply my academic knowledge to real-world projects, while my long-term goal is to grow into a skilled Business Analyst, contributing to strategic decision-making and mentoring others in the future.

WORK EXPERIENCE

BA

HR Management : In the HR Management project, I assisted in gathering and analyzing business requirements, documenting HR processes, and collaborating with both stakeholders and technical teams. My role focused on ensuring that the system design aligned with the HR department's needs and supported efficient workflows.

Microsoft Team : Assisted in gathering business requirements and documenting integration processes between Microsoft Teams and internal systems. Experienced in writing business-related documentation such as SRS, BRD, and Elicitation Notes.

Expense management (3 members)   Sep 2024 - Dec 2024
Role : Backend Developer + Business Analyst (Leader)

Technologies : Spring Boot, Spring Data JPA, Spring Security, Postman, ,HTML5, CSS, JavaScript, MySQL , JUnit 5, Mockito , Bootsrap , Draw.io , Figma , Interview .
- Implemented comprehensive user state management (active, inactive), change profile information. Developed authentication and role-based access control to ensure secure user.
- Gathered and analyzed business requirements, translated them into technical specifications for the development team.
- Built a personal expense management system that allows users to track and categorize income and expenses by month and category.
- Integrated interactive dashboards using Chart.js to visualize monthly financial summaries.
- Implemented dynamic filtering of transactions by month, and full CRUD operations for both transactions and categories to meet user flexibility needs.
